

1

Qin W, Yi H, Gao K

A neomorphic ossification connecting the braincase, squamosal, and quadrate in choristoderan reptiles: insights from μ CT data

11

Baranov V, Pérez-de la Fuente R, Engel MS, Hammel JU, Kiesmüller C, Hörnig MK, Pazinato PG, Stahlecker C, Haug C, Haug JT

The first adult mantis lacewing from Baltic amber, with an evaluation of the post-Cretaceous loss of morphological diversity of raptorial appendages in Mantispidae

25

Girard C, Charruault A-L, Gluck T, Corradini C, Renaud S
Deciphering the morphological variation and its ontogenetic dynamics in the Late Devonian conodont *Icriodus alternatus*

43

Arenillas I, Arz JA, Metsana-Oussaid F, Gilabert V, Belhai D
Hypothesis testing on the planktic foraminiferal survival model after the KPB mass extinction: evidence from Tunisia and Algeria

65

Yamamoto S, Nazarenko VY, Vasilenko DV, Perkovsky EE
First fossil species of ship-timber beetles (Coleoptera, Lymexylidae) from Eocene Rovno amber (Ukraine)

75

Chen Z-T

Bizarre egg structure uncovers a new family of Plecoptera (Insecta) from mid-Cretaceous Burmese amber

83

Manitkoon S, Deesri U, Lauprasert K, Warapeang P, Nonsrirach T, Nilpanapan A, Wongko K, Chanthasit P
Fossil assemblage from the Khok Pha Suam locality of northeastern, Thailand: an overview of vertebrate diversity from the Early Cretaceous Khok Kruat Formation (Aptian-Albian)

99

Vasilyan D, Čerňanský A, Szyndlar Z, Mörs T
Amphibian and reptilian fauna from the early Miocene of Echzell, Germany

147

Wang H, Matzke-Karasz R, Horne DJ
Mid-Cretaceous coastal amber forest palaeoenvironment revealed by exceptionally preserved ostracods from an extant lineage

173

Crespo VD, Goin FJ, Pickford M
The last African metatherian

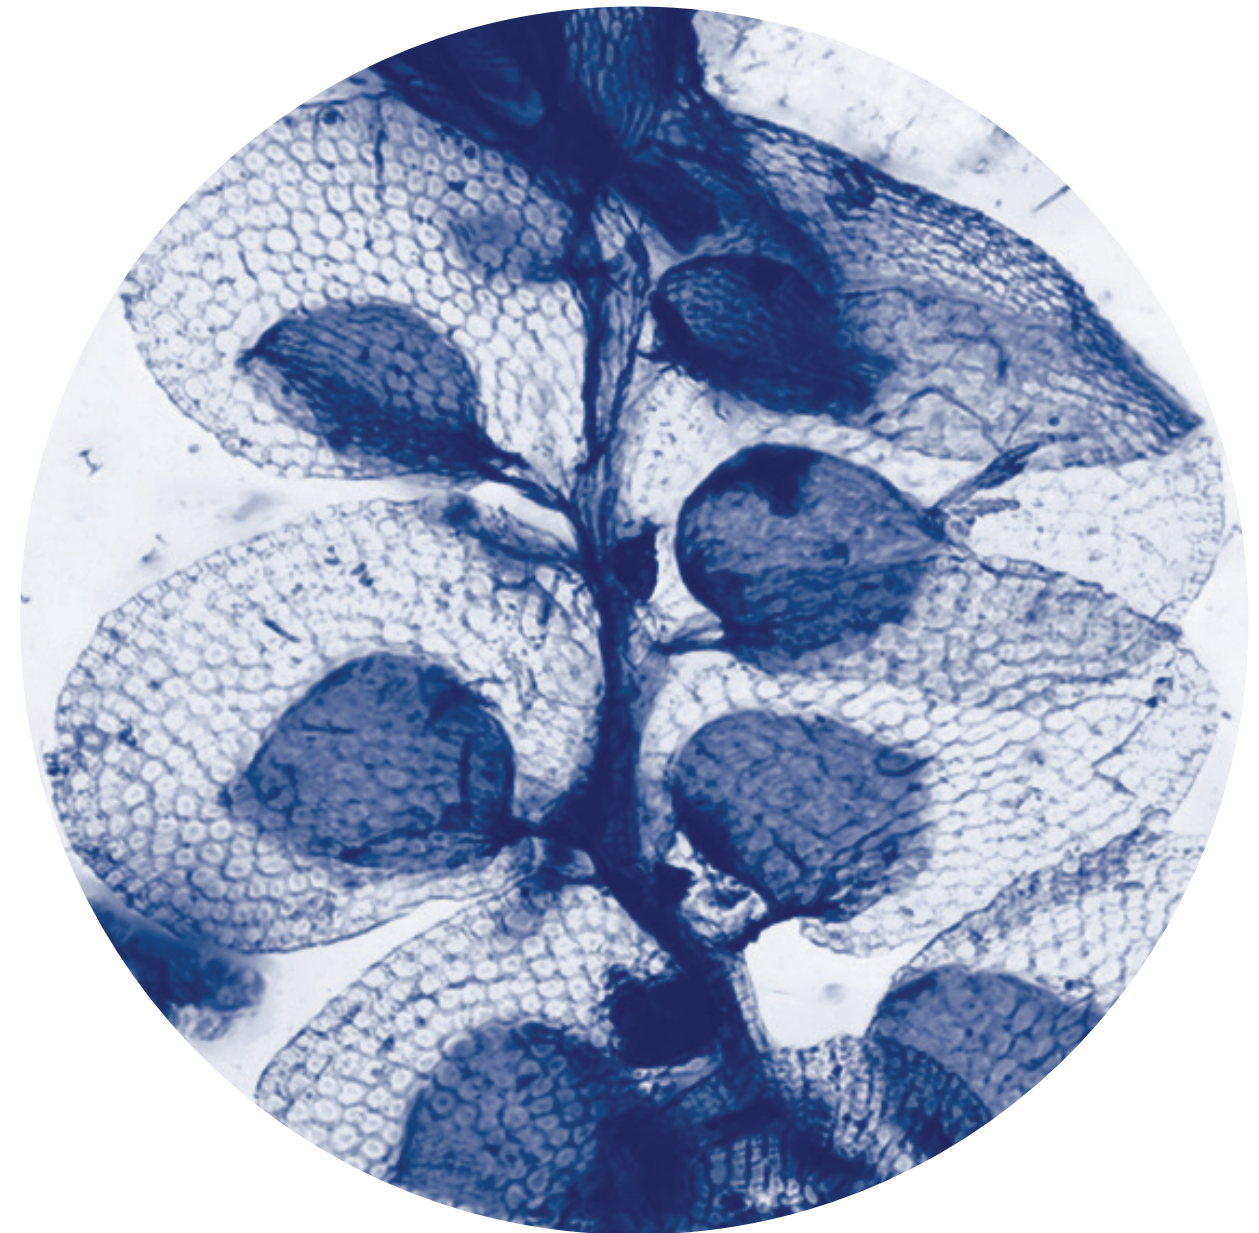

187

Spasojevic T, Broad GR, Klopstein S
Revision of 18 ichneumonid fossil species (Hymenoptera, Ichneumonidae) highlights the need for open nomenclature in palaeontology

213

Feldberg K, Schäfer-Verwimp A, Li Y, Renner MAM
Extending the diversity of the bryoflora in Kachin amber (Myanmar), with the description of *Radula patrickmuelleri*, sp. nov. and *R. tanaiensis*, sp. nov. (Jungermanniopsida, Porellales, Radulaceae)
