

1
Manitkoon S, Deesri U, Warapeang P, Nonsrirach T, Chanthasit P
Ornithischian dinosaurs in Southeast Asia: a review with palaeobiogeographic implications

27
Yamada K, Yamamoto S, Takahashi Y
A new remarkable cimicoid genus and species (Hemiptera, Heteroptera, Cimicomorpha) from mid-Cretaceous Burmese amber, with implications for its aberrant male genitalia

39
Pazinato PG, Müller P, Haug JT
New species of Tanaidacea from Cretaceous Kachin amber, with a brief review of the fossil record of tanaidacean crustaceans

51
Loréal E, Syromyatnikova EV, Danilov IG, Čerňanský A
The easternmost record of the largest anguine lizard that has ever lived – *Pseudopus pannonicus* (Squamata, Anguidae): new fossils from the late Neogene of Eastern Europe

85
Araújo R, Smith AS
Recognising and quantifying the evolution of skeletal paedomorphosis in Plesiosauria

103
Toumoulin A, Decombeix A-L, Harper CJ, Serbet R
Early Jurassic silicified woods from Carapace Nunatak, South Victoria Land, Antarctica

117
Joyce WG, Evers SW, Ren S, Rollot Y, Schwermann AH
The helochelydrid turtle *Helochelydra nopcsai* from the Early Cretaceous (late Barremian – early Aptian) fissure fills of Balve, North Rhine-Westphalia, Germany, including a large sample of granicones

135
Voss M, Hampe O, Mahlow K, Vilanova JC
New findings of *Prototherium ausetanum* (Mammalia, Pan-Sirenia) from paving stones in Girona (Catalonia, Spain)?
